Task for BD05

Unit task details

Exercises

Before starting the exercises, you must create the necessary tables. To do this, use the file **classicmodels.sql** and load and execute it to have the full schema ready for the exercises.

Exercise 1

- Insert a new record in the **customers** table using the graphical tool offered by MySQL Workbench. The data must be the following:

Field	Value
customerNumber	500
customerName	Stellar Tech Ltd.
contactLastName	Rivers
contactFirstName	Julia
phone	+34 600123456
addressLine1	99 Innovation Rd.
addressLine2	NULL
city	Barcelona
state	NULL
postalCode	08018
country	Spain
salesRepEmployeeNumber	1056
creditLimit	75000.00

- Insert a new record into the **employees** table using the graphical tool. The data must be:

Field	Value
employeeNumber	2001
lastName	Ortega
firstName	Marc
extension	x201
email	marc.o@classicmodels.com
officeCode	1
reportsTo	1002
jobTitle	Sales Rep

You must provide screenshots of the data insertion process and the moment before applying the changes. Describe each capture briefly.

Exercise 2

Insert the following payments into the **payments** table using SQL statements:

customerNumber	checkNumber	paymentDate	amount
124	H123	2024-02-06	845.00
151	H124	2024-02-07	70.00
112	H125	2024-02-05	1024.00

Copy the SQL statements you used in your submission. Only include the data shown.

Exercise 3

Modify the **addresses** of some customers using the graphical tool, and provide screenshots showing the changes made. Update the records in the **customers** table as follows:

customerNumber	city	addressLine1	postalCode
141	Girona	43 State St	17001
124	Lleida	2 Walls St	25002
119	Tarragona	46 Marlborough Rd.	43003

Exercise 4

Cancel the order made on **2003-09-28**, using SQL instructions. Change the **status** to 'Cancelled', the **shippedDate** to the current date, and **comments** to 'Order cancelled due to delay'. Do this using a single SQL statement.

Copy the statement in your submission.

Exercise 5

Update all **product names** of type *Trains* to include the product code in parentheses. For example, a product with productCode = S10_1949 and productName = "Vintage Train" will become:

"Vintage Train (code S10_1949)"

Do this with a single SQL statement using the proper MySQL functions.

Resource: [MySQL functions - W3Schools]

Exercise 6

Increase buyPrice and MSRP of all products with quantityInStock > 500 by 0.02%.

Do this with one SQL statement.

Exercise 7

Remove all payments made by customers who are represented by employees with the last name 'Patterson'.

Use a single SQL statement and copy it for the task delivery.

Exercise 8

Delete all customers from Lisbon who have not made any payment.

Use one SQL statement only.

Exercise 9

Add all customers as new employees, using their contact names as first and last name. Use customerNumber + 2000 as the new employeeNumber, leave all other fields as 'x0000' extension, 'new@company.com' email,'1' officeCode, 'Sales Rep' jobTitle

Use contactFirstName as firstName, contactLastName as lastName.

Do this with a single SQL statement.

Exercise 10

Cancel all **orders** made by customers handled by the customer Elizabeth Lincoln.

Change the status to 'Cancelled', shippedDate to the current date, and comments to 'Order cancelled by management'.

Use a single SQL statement.

Scoring criteria. Total 10 points.
EXERCISE 1: 0,5 Point EXERCISE 2: 1 Point EXERCISE 3: 0,5 Point EXERCISE 4: 0,5 Point EXERCISE 5: 1 Point EXERCISE 6: 1 Point EXERCISE 7: 0,5 Point EXERCISE 8: 2 Point EXERCISE 9: 2 Points EXERCISE 10: 1 Points

Resources needed to carry out the Task.

- It could be useful to have installed the mysql server and workbench application to test the answer.
- Web Browser
- Personal Computer
- Internet Connection

Recommendations.

It is recommendable do the exercises in the order in which they are indicated because in some cases, to solve the exercise it is necessary to have done a previous one.

If by mistake, or by testing, you have modified or deleted data that you will need later, you can load the file with the initial commands to start from scratch.

Submission rules.

Once the task is done, you will create a single document, the document should have the answer of the exercises inside. The delivery of the document will be done through the platform and the file document must be PDF named as follows:

Surname1_surname2_name_SIGxx_Task

Make sure the name does not contain the letter ñ, accents, or any other special characters. For example, the student Begoña Sánchez Mañas for the second unit of the subject BD, should name this task as...

sanchez_manas_begona_BD05_Task
